

# Bad Company, Silver, Blue & Gold

In the beginning, I believed every word that you said  
Now that you're gone my world's in shreds  
Oh you loved me and left me  
You took all the things that I needed so bad  
I'm standing here wondering where is the love that I had oh

CHORUS:

Give me silver, blue and gold

The color of the sky I'm told

My rainbow is overdue

In the beginning, there was something of love that was mine

Now that it's gone, whoa I'm crying

Oh the time that it takes for a love to grow cold is a wonder to me

I'm walking around with my head hanging down tell me where is she

CHORUS

Don't forsake me cause I love you

Don't forsake me cause I love you
