Badfinger, I Don't Mind

Birds sing and doorbells ring in answer People say it's a lovely day outside I don't mind, I've got my way of living Even if it's only for the ride I don't mind if people find me lazy I could say it's only for the fun Step inside, let's see if I can make you After all it's only just begun You don't know me What's on my mind And you can't show me What I can't find

Days, nights, alright, it's easy Spending time and making rhymes for you I don't mind, I've got my way of giving Even if it's all I ever do Step inside, let's see if I can make you Even if it's only for the ride You don't know me What's on my mind And you can't show me What I can't find
