## Bambi, Shadow

Bambi Miscellaneous Shadow Gettin so weak And i wish u understood How u make me feel Cuz right now i don't feel real And you don't even listen To the words that i speak And the thoughts that i'm havin r gettin me really freaked And the tears in my eyes Fall like rain from the sky Like the planets unligned And your questioning why I don't get the point It just makes no sense I thought it was the beginning Have I reached the end

I'm hiding from my friends
How could they understand me
When they do not know me
They can't show me
How to live my life
What is wrong from right
But then again
Who am i
Look back the days
When i tried so hard
Just to fit in
The way i am feeling
Where do i begin
