

# Bananarama, Dream Baby

Think of me while you're walking down the street  
Scheming ways for us to meet  
I know that you'd like to fool around  
You know I'm the hottest thing in town

You're getting closer  
Hot on my trail  
I'm the queen bee baby  
So you just can't fail

Cos I'm your dream dream baby  
I'm your sweet thing baby  
You're always worried that I'm not gonna stay  
Cos when the dreaming ends you know I'll fade away

Haunting you every day and night  
Haunting you till the early morning light  
And you want me if you know what's right  
I'm your No. 1 lady, sheer delight

You're getting closer  
Hot on my trail  
I'm the queen bee baby  
So you just can't fail

Cos I'm your dream dream baby  
I'm your sweet thing baby  
You're always worried that I'm not gonna stay  
Cos when the dreaming ends you know I'll fade away

Dream dream baby  
Dream dream baby  
You're always worried that I'll split the scene  
Cos like all good things I'm fading with your dreams

I can read from your eyes that you like my style  
Imagination's really running wild  
If you give it a try you know it could be  
So come on little baby won't you follow me

Cos I'm your dream dream baby  
I'm your sweet thing baby  
You're always worried that I'm not gonna stay  
Cos when the dreaming ends you know I'll fade away

Dream dream baby  
Dream dream baby  
You're always worried that I'll split the scene  
Cos like all good things I'm fading with your dreams
