

Bananarama, Wake Up And Love Me

Talking over
I need you tonight
Don't turn your back on me
Just because we had a fight

(bridge 1)
Oh how can I make you see
How much you're hurting me
Instead of breaking up
We should be making love

I need your love and affection
Time and attention
Wake up and love me

I need your love and affection
Time and attention
Wake up and love me

I say I'm sorry
If you understand
That all I really needed
Was the touch of your hand

How can you be cruel to me
When I need your arms around me
Instead of breaking up
We should be making love

I need your love and affection
Time and attention
Wake up and love me

I need your love and affection
Time and attention
Wake up and love me

I need your love
I need your love
Wake up and love me
Show me that you care
I need your love
I need your love
Wake up and love me
Tell me you'll be there

I need your love
I need your love
I need your love
I need your love

How can you be cruel to me
When I need your arms around me
Instead of breaking up
We should be making love

I need your love and affection
Time and attention
Wake up and love me

I need your love and affection
Time and attention
Wake up and love me
