

Bananarama, Waterfall

I just took a bite
From your sweet mouth
Starburst bright
Falling to the ground
The grass is green
Beneath my feet
Can you feel
(chorus)
It's like a waterfall coming down
Your love it just shines through me like the sun

I can feel your touch
On my skin tight
Slip and slide
With me through the night
Floating free
(chorus)
Your kisses fall like flowers over me
(chorus)
