

# Bang Gang, So Alone

The nights has strange moonlight  
It's so confusing  
Alone I watch the sky  
Tired and breathing

But if you want me  
I won't be so alone  
You can always  
Fool the sun

And if you want me  
I won't be so alone  
You can always  
Bring the fun

The sea is my best friend  
We're always crying  
When crawling in the sand  
Tired of breathing

But if...

The night has strange moonlight  
The sea is my best friend  
When crawling in the sand  
Tired of breathing

But if...  
But if...
