

# Barclay James Harvest, Titles

The long and winding road that leads to your door  
Here comes the sun it's alright people shout for more  
But were you trying to deceive telling me  
All you need is love to succeed  
Across the universe one after nine 'o' nine  
I got a feeling for you blue and I feel fine  
I tried so hard to make believe that I'd see  
All you need is love to succeed

CHORUS:

Lady Madonna let it be  
Something in the way you moved me yesterday  
All you need is love so they say
