

Bardot, Got Me Where You Want Me

Bardot

Bardot

Got Me Where You Want Me

Never knew a boy like you

You don't give up

Wouldn't stop at anything to give my love

Told me I was everything your dreaming of

But I thought you weren't my type

Now I believe in love at second sight

[Chorus]

Got me you got me where you want me

I'm yours and nothing's gonna stop me

Got me you got me where you want me

I'm your girl

Got me you got me where you want me

Falling for you, you finally caught me

Got me you got me where you want me

I'm your girl

Wasted time on boys who did not treat me right

I can count on your devotion day and night

Thank god that you finally made me realise

The only one I need

Was standing right there waiting patiently

[Repeat chorus]

Cause when I look into your eyes

Something inside just feels right

I've never loved a love so real so true

And that's all because of you

[Repeat chorus to fade]
