

# Bars And Melody, Own Ways

She call me crazy  
But i know i can't change  
Baby saying that i am caught up in my own ways  
There's a couple things about me  
That i know you hate  
But if we can't figure it out  
We go our own way

Stuck up in my own ways  
No switching lanes  
We can't change  
To check my range  
Hustle in the shadows  
Baby know i am shallow  
I am tryna better me  
Might invest in therapy

I am tryna change our thoughts on me  
Lucid dreams go tup under me  
Now i am stuck with you in front of me  
Just to hold you guard across countries

She call me crazy  
But i know i can't change  
Baby saying that i am caught up in my own ways  
There's a couple things about me  
That i know you hate  
But if we can't figure it out  
We go our own way
