

Bat For Lashes, Kids in the Dark

lying next to you
we could be on the moon
tell me you're always on my mind
it's been such a dark night
boy I know you're been grieving

riding thru he pines
see you on the red light
and everything is on fire

let's take it down
to the heart
let's take it down
to where the loving starts
where we're just kids in the dark

lying next to you
and I wann a live for 2
I tell you I'm never leaving
cause you're always on my mind
it's been such a hard time
but I know it's the real thing

riding thru he pines
see you on the red light
and everything is on fire

let's take it down
to the heart
let's take it down
to where the loving starts
where we're just kids in the dark
