

# Bazzi, Sober

[Verse 1]

I don't smoke cigarettes  
But I know you like to  
So I face an entire pack  
Just to be there with you  
And I never fall for girls  
But you got me tripping  
Running your hand through my curls  
All my worries missin'

[Pre-Chorus]

Don't know if it's the Hennessy  
That's got you in your honesty  
Oh, I just hope you still mean what you say  
When the sun comes up  
Oh, I hope it's not the alcohol  
That makes me think I want it all  
Oh, I just hope I still mean what I say  
When the night is up

[Chorus]

Will I want you when I'm sober?  
Sober, sober  
Will I want you when it's over?  
Over, over  
Will you want me when you're sober?  
Sober, sober  
Will you want me when it's over?  
Over, over

[Verse 2]

Late night up in the hills  
Wish this would last forever  
Thinking I want this real -  
Feelings can't be misjudged

[Pre-Chorus]

Don't know if it's the Hennessy  
That's got you in your honesty  
Oh, I just hope you still mean what you say  
When the sun comes up  
Oh, I hope it's not the alcohol  
That makes me think I want it all  
Oh, I just hope I still mean what I say  
When the night is up

[Chorus]

Will I want you when I'm sober?  
Sober, sober  
Will I want you when it's over?  
Over, over  
Will you want me when you're sober?  
Sober, sober  
Will you want me when it's over?  
Over, over

[Bridge]

Morning comes  
Will you still want me to stay?  
To stay, to stay

[Chorus]

Will I want you when I'm sober?  
Sober, sober  
Will I want you when it's over?  
Over, over  
Will you want me when you're sober?  
Sober, sober  
Will you want me when it's over?  
Over, over

[Outro]  
Sober
