

# Beady Belle, Shadow

I can see your shadow every night  
From the lights of your window  
Reflecting on the pavement outside my door

I know when you're crying  
I know when you smile  
I know when you're sleeping after a while

I know what your movements are  
I see when you dance  
And I'm a big jealous when you have a romance

Shadow, shadow  
Shadow, shadow, shadow

For me you're a shadow  
Or maybe a dream  
I know that reality is not what it seems

I sit in my window  
With a glass of wine  
I know that forever you won't be mine

Shadow, shadow  
Shadow, shadow, shadow

I can see your shadow every night  
From the lights of your window  
Reflecting on the pavement outside my door  
My door
