

Bear In Heaven, Sinful Nature

Your friends don't know
Your friends don't know what you go through
Mention your feelings
Mention the strange things they do

Surrender ill will
Surrender your self-control
Are you for real
Or are you hiding your sinful nature?

I know what it is
It's a haze
I know what it is
It's just a phase
You just don't know it yet

Out of thin air
And into your own universe
You're let down by god
You're let down by boring strangers

They'll spit in your face
And push you back into your shell
They'll sing shitty songs
And sop up your blood on the wall

They just don't know it yet
It's a haze
Screaming your heart out
You're screaming it into the fold
Sinful nature

You should have won
You need to be out on your own
Let's get loaded
And make some strange things come true

You know the deal
You don't deny me your sinful nature

I know what it is
It's a haze
I know what it is
It's just a phase
You just don't know it yet
