

# Beat Crusaders, LET'S ESCAPE TOGETHER

One fine day  
On my way  
There's a bear  
In a deep forest

Run away  
Hide away  
There's no way  
Getting where I belong

But, you wait!  
Look away  
Here to stay  
Too many people

We're afraid  
So afraid  
Anyway  
Why don't we sing along?

Everybody, let's escape together!  
Everybody, let's get lost together!  
Everybody, let's escape together!  
Everybody, let's get lost forever

Cos I know  
Evils in my mind  
Get down straight  
Close to my heart  
Yes, I know  
Evils in my mind  
Grow

Welcome to the overture  
This is the hell  
Welcome to the overture  
Here comes the time
