

# Bebe Rexha, I Wanna Love You Forever

Nothing feels like when you're sitting on top of the world  
I wanna give you everything, everything

Riding all the highs, pressure to your lungs  
In the darkest times it feels so fuckin' slow  
You make it all okay, all okay

Enter my system, enter up my brain  
Never wanna feel saddened again  
Make me feel numb  
Empty like a drum  
I wanna love you  
I wanna love you forever and ever and ever and ever  
I wanna love you forever

Mess me up real bad  
The realest love I've had  
Swallow you whole  
Now I feel at home

Riding all the highs, pressure to your lungs  
In the darkest times it feels so fuckin' slow  
It feels so fuckin' slow, it feels so fuckin' slow  
You make me feel okay

Enter my system, enter up my brain  
Never wanna feel saddened again  
Make me feel numb  
Empty like a drum  
I wanna love you  
I wanna love you forever and ever and ever and ever  
I wanna love you forever

I wanna love you forever and ever and ever and ever  
I wanna love you forever
