

# Bebe Rexha, Kill Me Back to Life

Break my fall for oh so many reason, you've saved my life  
Falling angel playing me like seasons, I try to fight

You're pulling me out of the dark, baby  
You knew that my heart was a light that shines  
You knew it would all turn out alright, oh  
You took on a girl that you knew was breaking

You kill me back to life  
But there's not a single scar  
But tell me where my time  
Do you feel my body rise?  
Do you hear me call at night?  
Seeing life through different eyes  
Well I think I'm about to die  
You kill me back to life  
You kill me back to life

Life ain't all the simple things like breathing, believing  
If someone who will stay instead of leaving me is who I

You're pulling me out of the dark, baby  
You knew that my heart was a light that shines  
You knew it would all turn out alright, oh  
You took on a girl that you knew was breaking

You kill me back to life  
But there's not a single scar  
But tell me where my time  
Do you feel my body rise?  
Do you hear me call at night?  
Seeing life through different eyes  
Well I think I'm about to die  
You kill me back to life  
You kill me back to life

And I don't wanna die with anyone else but you  
I'd rather die in your arms tonight

You kill me back to life  
But there's not a single scar  
But tell me where my time  
Do you feel my body rise?  
Do you hear me call at night?  
Seeing life through different eyes  
Well I think I'm about to die  
You kill me back to life  
You kill me back to life
