

Bebe Rexha, Kiss Me (Like Tonight We're Gonna Die)

Close your eyes and breathe me in
Feel me on your skin
I burn like sun, when you come undone
Cause you are da only one

Lets go get high
One more night
Are you up for this?
Lets watch the sunset, never forget

So good morning to the stars
Kiss the sun goodbye
When we come alive
We light the darkest skies
Heaven feels so close
When you're by my side
Kiss me like tonight, tonight we're gonna die!
Kiss me like tonight, tonight we're gonna, night we're gonna, night We're gonna die

Beat me like I'm your drum. I'll be your homerun
At the speed light we're out of sight
No theres no turning back

Lets go get high
One more night
Are you up for this?
Lets watch the sunset, never forget

So good morning to the stars
Kiss the sun goodbye
When we come alive
We light the darkest skies
Heaven feels so close
When you're by my side
Kiss me like tonight, tonight we're gonna die
Kiss me like tonight, tonight we're gonna, night we're gonna, night We're gonna die

So good morning to the stars
Kiss the sun goodbye
When we come alive
We light the darkest skies
Heaven feels so close
When you're by my side
Kiss me like tonight, tonight we're gonna die!

So good morning to the stars
Kiss the sun goodbye
When we come alive
We light the darkest skies
Heaven feels so close
When you're by my side
Kiss me like tonight, tonight we're gonna, night we're gonna, night We're gonna die
