

# Bebe Rexha, Monster Under My Bed

(Verse)

In the darkness of my nights  
A little spark begun to shine  
Woke up and I realized  
Imperfection is divine

(Pre-Chorus)

So this creepy heart of mine  
That is tip toeing on the line  
I know we will be just fine  
And I know why

(Chorus)

I'm friends with the monster that's under my bed  
Get along with the voices inside of my head  
You're trying to save me, stop holdin' your breath  
And you think I'm crazy, yeah, you think I'm crazy  
Well that's nothing (new new)  
Well that's nothing (new new)

(Verse)

In a world so black and white  
I'm blazing up my mind  
Woke up and I realized  
Imperfection is divine

(Pre-Chorus)

So this creepy heart of mine  
That is tip toeing on the line  
I know we will be just fine  
And I know why

(Chorus)

I'm friends with the monster that's under my bed  
Get along with the voices inside of my head  
You're trying to save me, stop holdin' your breath  
And you think I'm crazy, yeah, you think I'm crazy  
Well that's nothing (new new)  
Well that's nothing (new new)

(Chorus x2)

I'm friends with the monster that's under my bed  
Get along with the voices inside of my head  
You're trying to save me, stop holdin' your breath  
And you think I'm crazy, yeah, you think I'm crazy  
I'm friends with the monster that's under my bed  
Get along with the voices inside of my head  
You're trying to save me, stop holdin' your breath  
And you think I'm crazy, yeah, you think I'm crazy  
Well that's nothing (new new)  
Well that's nothing (new new)
