

Bebe Rexha, Small Doses

[Verse 1]

You said, "let me try you on"
So I let you try me on
That's the moment that we fell in deep
Oh, baby, I said, "just a little bit"
Then I got a taste of it
Now you got me fallin' at your feet

[Pre-Chorus]

And now we're cryin' and lovin'
And now we're fightin' and touchin'
Feels like I'm makin' love to the enemy

[Chorus]

I can only take you in small doses, small doses
Loving you, it's explosive, you know this
I can only take you in small doses, small doses
Loving you, it's explosive, you know this
I can only take you in small doses

[Verse 2]

I didn't mean to fall in love
Took one hit and I was gone
Gotta get my fix or I can't sleep
Oh, baby, you're the one they warned about
Now I just can't do without
Baby, it's my appetite you feed

[Pre-Chorus]

And now we're cryin' and lovin'
And now we're fightin' and touchin'
Feels like I'm makin' love to the enemy

[Chorus]

I can only take you in small doses, small doses
Loving you, it's explosive, you know this
I can only take you in small doses, small doses
Loving you, it's explosive, you know this
I can only take you in small doses
Small doses, small doses
I can only take you in small doses
Small doses, small doses

[Bridge]

And now we're cryin' and lovin'
And now we're fightin' and touchin'
Feels like I'm makin' love to the enemy

[Chorus]

I can only take you in small doses, small doses
Loving you, it's explosive, you know this
I can only take you in small doses, small doses
Loving you, it's explosive, you know this
I can only take you in small doses
Small doses, small doses
I can only take you in small doses
Small doses, small doses
I can only take you in small doses
