

# Bednarek, Real Thing

Never mind the stars in the sky  
never mind the when and the why  
got a feeling higher than high  
this is the real thing

No more living in shame  
and I'm not gonna run or gonna hide away  
no more telling all those lies  
it's been too long  
no more living in chains  
no I don't give a damn  
what the people say  
there's no use holding back desire  
we've burnt out finger  
now let's jump into flames

(chorus)  
Never mind the stars in the sky  
never mind the when and the why  
got a feeling higher than high  
this is the real thing  
never mind the rain and the storm  
we'll keep each other warm  
we got something stronger than strong  
this is the real thing

Gonna walk out hand in hand  
so let them criticize  
'cos they don't understand  
we've got nothing to hide  
it's just love  
I've had enough of shy  
so let's go out and show them  
what we have inside  
there's no use in holding back desire  
we've burnt our fingers  
now let's jump into the fire

Never mind the stars in the sky  
never mind the when and the why  
got a feeling higher than high  
this is the real thing  
never mind the rain and the storm  
we'll keep each other warm  
we got something stronger than strong  
this is the real thing

Never mind the stars in the sky baby  
never mind the when and the why baby  
never mind the stars and the sky baby  
'cos I've got feeling that higher than high

Never mind the stars in the sky  
never mind the when and the why  
got a feeling higher than high  
this is the real thing  
never mind the rain and the storm  
we'll keep each other warm  
we got something stronger than strong  
this is the real thing

Never mind the stars in the sky baby  
never mind the when and the why baby  
never mind the stars and the sky baby

'cos I've got feeling that higher than high

Never mind the stars in the sky  
never mind the when and the why  
got a feeling higher than high  
this is the real thing  
never mind what people may say  
they can't take this away  
let them try, I say hey  
this is the real thing
