

# Bee Gees, Desire

Ah..... ah....

We may be big or small or black or white , eternally  
And black and white is you and me in a special light  
We may be young or old or in between ,but this much I know  
Together we can learn to grow  
In a world that's ever turning it's back on you  
If you give it all away ,  
Make it mine ,ine , ine , ine , mine  
You are desire , ev'rything you need  
I give you right or wrong  
And you are the woman that i  
Base my whole existence on  
And when I get to you my  
Desire is glowing in your light

These are the golden years we get to live  
We lead the way , tomorrow we can start today  
In a special light  
Love could be good or bad or in between  
But this much I learn  
Baby , you and I can learn  
In a world that's rearranging it's reality

If you give it all away  
Make it mine , ine , ine , ine , mine  
You are desire , ev'rything you need  
I give you right or wrong  
And you are the woman that i  
Base my whole existence on  
And when I get to you my  
Desire is glowing in your light  
Ah...

And it's nice to light a fire  
When it's cold outside  
If you give it all away  
Make it mine , ine , ine , ine , mine  
You are desire , ev'rything you need  
I give you right or wrong  
And you are the woman that i  
Base my whole existence on  
And when I get to you my  
Desire is glowing in your light
