

# Bee Gees, Night Of Love

One night , one night of love , that's all I need  
One night of love  
Tonight , looking at me with your big brown eyes  
Tonight , filling me up with those sexy lies  
Feeling your feeling baby  
I got to have you by my side  
Loving you  
You take me on a midnight ride

Night of love , a simple night of love  
And it's you sweet child that I'm thinking of  
Need to hold someone till the dark has gone  
And it's your good loving that I'm counting on

Tonight , won't you take my body higher , honey  
Tonight , turn this heart of stone on fire , honey  
Seeing you needing me baby  
Make me feel electrified  
Loving you

You take me on a midnight ride

Night of love , a simple of love  
And it's you sweet child that I'm thinking of  
Need to hold someone till the dark has gone  
And it's your good loving that I'm counting on

Night , night , night of love  
And it's you that I'm thinking of  
I need a night , night , night of love  
Come on , set me on fire , take me higher

Night of love , a simple night of love  
And it's you sweet child that I'm thinking of  
Need to hold someone till the dark has gone  
And it's your good loving that I'm counting on

(repeat last verse and fade out )
