

# Bee Gees, They Say

Have you heard what they say to me  
They say our love could never be

They say that we are much too young to be  
They say that I will go away and she will cry  
And she will cry

They say that we are much too young to fall  
It's just that they don't understand that's all  
That we are one , oh we are one

Because I want her so bad and I can't live without her  
Want her so bad , I know I'll never doubt her  
She is my love  
I want it all tonight

They say that we will never see the stars  
But they can't see , the stars are really ours

For they don't know  
The just don't know

Some day we'll go and run so far away  
To prove that we don't care what people say  
And you'll be mine  
And you'll be mine

Because I want her so bad and I can't live without her  
Want her so bad ,i know I'll never doubt her  
She is my love  
I want it all tonight

Because I want her so bad and I can't live without her  
Want her so bad, I know I'll never doubt her  
She is my love  
I want it all tonight  
Ooh....
