

Behemoth, Daimonos

Honour me!
Chaldean priests
Bow to me, in adoration
Evangelize
Prophets of the boundless joy
Sanctify the sun of indulgence
We worship the sun
We worship the moon
Spreading like rats
Exalted above the stars of god
All hail slain and risen god!
All hail Dionysus!
"Come, blessed Dionysius, various named, bull-faced
Begot from Thunder, Bacchus named
Bassarian god, of universal might
Whom swords, and sacred rage delight"
War be sustained!
My godless phoenix rise
Never to lifeless shall I submit
Offering solely the sword not peace
Mercy and cowardice within
We worship the sun
We worship the moon
Spreading like rats
Exalted above the stars of god
All hail slain and risen god!
All hail Dionysus!
