

Behemoth, God=Dog

there's a serpent coiling round my neck
the adorning crescent moon in blazing night
the holy river Ganga flowing from my matted hair
in the ancient times before I learned ov who I am

if I am a missing link between the pig and the divine
I shall cast the pearls before the swine

I am no good shepherd on an ox
but a solitude ov the loneliest star
like a 1000 shrines subsumed into the void
like a dead space in between the suns

is a God to live in a dog?
no!
but the highest are of us

Elohim,
I shall not forgive
Adonai
I shall not forgive
living god
I shall not forgive
Jesus Christ
u forgive Thee not!
