

Bella Bely, Stuck

Thought I could replace you but you stuck in my head
And I know I couldn't save you but I cannot let go
I can even face you but you stuck in my head
And all the love I gave you but you don't even know

Thought I could replace you but you stuck in my head
And I know I couldn't save you but I cannot let go
I can even face you but you stuck in my head
And all the love I gave you but you don't even know

Thought I could replace you but you stuck in my head
And I know I couldn't save you but I cannot let go
I can even face you but you stuck in my head
And all the love I gave you but you don't even know

Thought I could replace you but you stuck in my head
And I know I couldn't save you but I cannot let go
I can even face you but you stuck in my head
And all the love I gave you but you don't even know

Thought I could replace you but you stuck in my head
And I know I couldn't save you but I cannot let go
I can even face you but you stuck in my head
And all the love I gave you but you don't even know
