

# Ben Lee, Shine

Ocean sea floor  
I've been waiting for you  
See less, be more  
Where you been?

With a teenage head  
And the trouble you've bought  
If you slow down now  
Then you're gonna get caught

Darkness before  
I've been waiting for you  
Charlie Brando  
Where you been?

With a teenage head  
And the trouble you turn  
If you slow down now  
Then you're gonna get burned

All I wanted was to live on my blind side  
Every shadow's like another bad dream  
Move fast and Mister dim those headlights  
Don't let 'em shine in front of me

Silent swallow  
I'm still praying for you  
Darkness shadow  
Where you been?

With a teenage head  
And the trouble you turn  
If you slow down now  
Then you're gonna get burned

All I wanted was to live on my blind side  
Every shadow's like another bad dream  
Move fast and Mister dim those headlights  
Don't let 'em shine in front of  
All I wanted was to live on my blind side  
Every shadow's like another bad dream  
Move fast and Mister dim those headlights  
Don't let 'em shine in front of me

With a teenage head  
And the trouble you've bought  
If you slow down now  
Then you're gonna get caught  
All I wanted was to live on my blind side  
Every shadow's like another bad dream  
Move fast and Mister dim those headlights  
Don't let 'em shine in front of  
Don't let 'em shine in front of  
Don't let 'em shine in front of me
