

# Ben Taylor, Oh Brother

No man is a hero every day  
and even a champion loses the day before the race  
try not to be sleeping in your wide awake  
and when your chance comes have fun don't be afraid

Oh brother all you got to know is who you are  
and it will be alright, alright  
oh brother, won't you be realize that you're a star  
you're gonna shine so bright

And you don't always have to want to play  
and you won't always have to be read in the pay  
try to make sure to make more love than he  
and when your chance comes stand up  
knew what you say

Oh brother all you got to know is who you are  
and it will be alright, alright  
oh brother, won't you be realize that you're a star  
you're gonna shine so bright

It won't always be easy along the way  
and you won't always believe me when I say  
you done it anything but life and faith  
and you can always call out my name  
You've got to shine on, shine on, shine on, shine on  
little brother,  
You've got to shine on, shine on, shine on, shine on  
my little brother

We just get some of that good old time baby  
well you know some old times 80s old time  
you know, you know, no no
