

Benson Boone, Forever and a Day

I started driving through the hills
Told me to come and get you
No words convey the way it felt
For me to finally hold you in my arms
Just long enough to know

Know every word you're gonna say before you even think it
But somehow every joke you make
Is funnier each time around
Your laugh is such a perfect sound

These butterflies
Lived a million lives
To say
I swear I've known you longer than

Forever and a day
A day
Forever and ever and a day
A day
A day
Forever and a day

I bet we already knew our names
Before we met each other
I bet we've sailed the Milky Way
Walked on the sun together
How could I forget those emerald eyes
It took me by surprise

But suddenly I missed your face
I knew that smile from miles away
I knew that I have loved you

Forever and a day
A day
In all my lives
I've waited every time
To hear you say
I'm yours
Forever and a day
I don't believe
In destiny
But I might have to say
Your melodies
They're changing me
I'm yours forever and a day
Forever and a day
I don't believe
In destiny
I'm yours forever
