

Beth Hart, Mechanical Heart

I was born with the mechanical heart
Miles of wires and the video parts
If only I have human touch
I'll give you the love you deserve so much
And everything that happened in the clouds
That happened in the clouds
For you I'll all bring it down
I'm gonna bring it all down

I'll be your airplane
Give you the world what you want desperate
Fly away above the stars
Show you what you're to my mechanical heart

Love can't be programmed
I'm sad to say, this is all that I am!
Computer screens and new touchphones
Can't hold your hand or take you home
And I set it in the clouds
We open the clouds
I swear I'm going to fear out
I'm going to fear in

I'll be your airplane
Give you the world what you want desperate
Fly away above the stars
Show you what you're to my mechanical heart

I'll bring the heaven to you
I'll bring the heaven to you
I'll bring the heaven to you
