Between The Trees, Move

Stretch your line and cover up, to sit at home With every passing mile, melodies become More than a song in my head

I paint a picture of the story of my life told

And taking chances, see the colour scheme unfold

This is ours

And we're taking chances

We're moving and we're not waiting for

This to move

So we're gonna move

All I know is we're gonna make it out (we're moving)

All I know is nothing can stop us now (still moving on)

All I know is we're gonna make it out (we're moving)

All I know is nothing can stop us now

Time is precious, we can't stop now

If you're burning by the bruises then

You're never gonna make it out

And if you're hurting, well reality shows

And broken branches are a reason to say no

This is ours

And we're taking chances

We're moving and we're not waiting for

This to move

So we're gonna move

All I know is we're gonna make it out (we're moving)

All I know is nothing can stop us now (still moving on)

All I know is we're gonna make it out (we're moving)

All I know is nothing can stop us now

'Cause these roads were made for moving

So we're moving

We're moving

All I know is we're gonna make it out

All I know is nothing can stop us now

All I know is we're gonna make it out (we're moving)

All I know is nothing can stop us now (still moving on)

All I know is nothing can stop us now (still moving on)

All I know is nothing can stop us now (still moving on)
