Give me the mic so I can bring this through
See, let me tell you boo

Wyclef: Yo, Bev man, this remix is so hot, you gotta re-wind!

Beverley: This is the remix (true)
We give you something you can bounce to (true)
We give you something you can bubble to (true)
Give me the mic so I can bring this through
See, let me tell you boo
There ain't a thing I wouldn't do for you
You gotta show me that you love me too
I keep it cuttin like those things is cool

The shape of you (yeah)
Got me loosin' my mind when I see your face (yeah)
Got me callin all hours up to your place (yeah)
Negative memories are erased
The way you smile (way you smile)
Got me fantasizing when I touch my thighs
Wishing every night you were by my side
Keeping me hypnotised, keeping me hypnotised

Beverley: See let me ask you gee
So what happened to our chemistry?
Say whats up, easy like the A-B-C
The 1-2-3 and the do-ray-mi
Now I'm cool to take a chance
Still lies can feel romance
The way you put it down when I see you dance
Thugged out on the floor with your saggy pants

The shape of you (yeah)
Got me loosin' my mind when I see your face (yeah)
Got me callin all hours up to your place (yeah)
Negative memories are erased
The way you smile (way you smile)
Got me fantasizing when I touch my thighs
Wishing every night you were by my side
Keeping me hypnotised, keeping me hypnotised

Wyclef: Get on the floor now, get on the floor now
Get on the floor, everybody on the floor now
Put up your hands now, put up your hands now
Everybody on the floor put up your hands now

Beverley: The shape (shape), of you (you), hits me deep inside, yeah

Wyclef: Yo Bev, can I play my guitar on this part?

Beverley: The way (way), you do (do), said I still feel your lo-o-o-v-e
