

# Beyoncé, Ego

Hey baby how you doing?  
You know Im gonna cut right to the chase  
Some women were made  
But me, myself  
I like to think I was created  
For a special purpose  
You know, whats more special than you, you feel me?  
Its on, baby lets get lost  
You dont need to call into work, cuz youre the boss  
For real want you to show me how you feel  
I consider myself lucky thats a big deal  
(Why?)

well, you got the key to my heart  
But you aint gonna need it  
Id rather you open up my body  
And show me secrets  
You didnt know was inside,  
No need for me to lie  
Its too big  
Its too wide  
Its too strong  
It wont fit  
Its too much  
Its too tough  
He talks like this  
Cuz he can back it up  
He got a big ego  
Such a huge ego  
I love his big ego  
Its too much  
He walks like this  
Cuz he can back it up  
Usually Im humble  
Right now I dont choose  
You can leave with me  
Or you could have the blues  
Some call it arrogant  
I call it confidant  
You decide when you find  
Out what Im working with  
(Why?)

Damn I know, Im killing you with them legs  
Better yet them thighs  
Matter a fact its my smile  
Or maybe my eyes  
Boy you a sight to see  
Kinda sum'n like me  
Its too big  
Its too wide  
Its too strong  
It wont fit  
Its too much  
Its too tough  
I talk like this  
Cuz I can back it up  
I got a big ego  
Such a huge ego  
But he love my big ego  
Its too much  
I walk like this  
Cuz I can back it up  
I, I walk like this  
Cuz I can back it up  
I, I talk like this

Cuz I can back it up  
I, I can back it up  
I can back it up  
I walk like this  
Cuz I can back it up  
Its too big  
Its too wide  
Its too strong  
It wont fit  
Its too much  
Its too tough  
He talks like this  
Cuz he can back it up  
He got a big ego  
Such a huge ego  
I love his big ego  
Its too much  
He walks like this  
Cuz he can back it up  
Ego so big  
You must admit  
I got every reason to feel like Im that bitch  
Ego so strong, if you aint know  
I dont need no beat, I can sing it with piano
