

# Beyoncé, Ice Cream Truck

Verse:1

Feel like im losing my mind  
Love is so hard to find  
You led me on to believe, you belong to me;  
ohh ohhhh  
Im going through difficult times  
I always thought you were mine  
Love doesnt feel like this, this is my final wish

Bridge:

The next your truck rolls by  
No matter how hard I cry  
Please dont stop in front of me  
Cause your loves no longer sweet.  
The next time I bring you change  
Baby please pull back ya hand  
You know your not what I need  
Let me go, Let me do B.

Chorus x2:

You've got me checking out for you like and ice cream truck, I try my luck and catch up but, Its always

Verse 2:

Faster and faster I ran  
You sped up and then  
Just as I thought I've caught up  
Im chasing you again.  
Finally,  
You stopped and I jumped on  
I feel like your flavor was wrong  
I thought That i was still holding on  
Its good to know your gone.

Bridge:

The next your truck rolls by  
No matter how hard I cry  
Please dont stop in front of me  
Cause your loves no longer sweet.  
The next time I bring you change  
Baby please pull back ya hand  
You know your not what I need  
Let me go, Let me do B.

Chorus x2:

You've got me checking out for you like and ice cream truck, I try my luck and catch up but, Its always
