## Beyoncé, Satellites

Satellites, flashing by Its a beautiful state were in But how can we love in isolation Think how happy we can be When we just try Were nothing like we seem Passionate words are never spoken You dont know how I bleed When I leave your side In your eyes, loves a life Weve come untied Cause were flashing by like satellites Satellites Take all the rules away How can we live if we dont change Were always on display Lets run and hide In our eyes, loves a life Weve come untied Cause were flashing by like satellites Satellites If we dont communicate Well exist in our own space Well have all the love we need While were apart I cannot breathe Satellites, flashing by Satellites
