

# Biffy Clyro, I Hope Your Done

Any time I wander through your heartless night  
Words have all but left me, breezing in the mind

You are my peaceful love  
Now it's just shattered, feeble

Every time I wander through your heartless night  
Words have all but left me, breezing in the mind

You are my peaceful love  
'Til we believe in something

Open your eyelids, see what you've done

Violence ends...  
Some things are spoken  
People you've helped  
Come and hide and never sleep

What can feel you?  
I can feel you  
(screams)

I hope you're done  
I hope you're done  
I hope you're done  
I hope you're done
