## Biffy Clyro, Kids From Kibble And The Fist Of Light

Say! Nothings better You say nothings better Say! Nothings better than the rest Say! Hope youre better than the rest cause you talk a good game

Your sensations are suffering III make your sensations suffer

Through these long sadistic highs When you say the way I collide with you I hope you see straight

Tonight, Im in a rage Tonight, Im in a rage

Say! Nothings better than the rest cause you talk a good game

My sensations are suffering My sensations are suffering Through these long sadistic nights Did you see the way I Collide, with you I hope you see straight

Tonight, Im in a rage Tonight, Im in a rage

Once again Youve missed the point

These strange explosions hit me Like a fist of light These strange explosions hit me Like a fist of light These strange explosions hit me Like a fist of light These strange explosions hit me Like a fist of light

These strange explosions hit me (Do you believe that I care?)
Like a fist of light
These strange explosions hit me (Do you believe that I care?)
Like a fist of light
These strange explosions hit me (Do you believe that I care?)
Like a fist of light
These strange explosions hit me
