

# Biffy Clyro, The Ideal Height

You've opened the door to reason, without invitation  
Forget what you had, it's vanished - except for the minions  
But we'll scratch away to find the ideal height  
How well do you think that you know me? I'll tell you now, I didn't even mean it  
Circumstance predicts I, slim the main  
We hope that you don't remember instructions of heaven  
Cos' everyone has a purpose, even the minions  
But we'll scratch away to find the ideal height  
How well do you think that you know me? I'll tell you now, I didn't even mean it  
Circumstance depicts I, slim the main...make the strain go away!
