

Big Brovaz, Nu Flow

[Intro.]

Ladies and Gentlemen:

Boys and girls

It is my pleasure to

introduce to you all

The finest; the brightest;

the meanest; the strongest

The very best of them all

The south London collective group

Known as:

For goodness sake Roger who is it?

[Chorus]

This is big bro (bro)

Taking over the show

With this new flow, flow

You need to listen up

And feel this shit, shit

Cause we wont quit, quit

We make them hits

And stack them chips

Its Flawless I came for the doe

As soon as I step in the door

I see that youre hating my glow

The crew, the flow were

soon to blow

Were tired of being this poor

And having to sleep on the floor

And working a 9 to 5

Just like a five-dollar whore

Knowing were worth more

We simply had to settle the score,

Thats why you see these albums

And the singles in the store

Its Big Brovaz baby trying to

cash some major figures

You mess with my cheese and Ill switch just like Schwazernegger

[Chorus]

This is big bro (bro)

Taking over the show

With this new flow, flow

You need to listen up

And feel this shit, shit

Cause we wont quit, quit

We make them hits

And stack them chips

Its Dion

I bet you wont forget my name

I probably maybe gonna

get inside your brain

My family does the same

Its BBs time to reign

Were doing them platinum things

I know youre not ready for me

You move you lose

Cant wear my shoes

Cherise brand new

Me and my crew

Dont try our flow
If your tongue dont roll
Youll lose control
Were just way too cold

[Chorus]

This is big bro (bro)
Taking over the show
With this new flow, flow
You need to listen up
And feel this shit, shit
Cause we wont quit, quit
We make them hits
And stack them chips

Hey yo this is Jay Rock
And Ive got more
Skills then average
Put us together man were more than all of yawl can manage
Cause we be the baddest at it
This here took years of practice
And now its only more
money and its more madness
Stack up on a daily basis,
Weve travelled so many places
Switching so many chicks were mixing up the names with faces
They see the ice and they trip,
they like to ride in the whip
But all I wanna know is if these girls is riding the ahhhhh

Whos, whos, Whos this!

This is the N.A.D.I you didnt
think I was coming at ya
Giving you people a different
kind of big brother flava
I bet yawl didnt think I be riding these beats and making the paper
But I guess that Im a paper chaser playa and its in my nature

[Chorus]

This is big bro (bro)
Taking over the show
With this new flow, flow
You need to listen up
And feel this shit, shit
Cause we wont quit
We make them hits
And stack them chips

[Chorus]

This is big bro (bro)
Taking over the show
With this new flow, flow
You need to listen up
And feel this shit, shit
Cause we wont quit
We make them hits
And stack them chips

[Outro]
Ah ha [etc.]
