

# Big City Rock, All Of The Above

I've heard of social climbing  
And I've heard of bad timing  
But I haven't heard it all before...

Do you wanna rock?  
Do you wanna roll?  
Do you wanna get down on the floor?

All of the above  
I'm falling in love  
Anything goes now  
Everyone knows how to throw a party  
We're gonna find one tonight  
We're gonna show them what we're made of  
All of the above...

I've seen a lot of faces  
And I hear a lot of voices  
But never one as sweet as yours...

Do you wanna carve  
My name into a wall  
Right next to yours inside the shape of a heart?

All of the above  
I'm falling in love  
Anything goes now  
Everyone knows how to throw a party  
We're gonna find one tonight  
We're gonna show them what we're made of...

All of the above  
Fallin' in love  
With you...  
With you...  
With you...  
With you...

I'm dropping out,  
& Cause I've seen what it's about  
And I know there must be something more

Do you wanna rock?  
Do you wanna roll?  
Do you wanna get down,  
Get down,  
Get down?

All of the above  
I'm falling in love  
Anything goes now  
Everyone knows how to throw a party  
We're gonna find one tonight  
We're gonna show them what we're made of...

All of the above  
I'm falling in love  
Anything goes now  
Everyone knows how to throw a party  
We're gonna find one tonight  
We're gonna show them what we're made of...

All of the above...  
Get down,

Get down,  
Get down,  
Get down,  
Get down,  
Get down,  
Get down,  
Get down,  
Get down,  
All of the above...
