

Big Dismal, Gave It All Away

Second chances don't come around
what's done is done you should've thought of that
before you lied down and changed your life in an instant
you'll never gonna be the same you're gonna miss it
I know you wanted something real
something that's forever
so tell how does it feel
that it's gone
you gave it all away you didn't even think about it
Gave it all away now there's nothing left to give
I know the years go by but you can't forget
The look in his eyes, broken promises filled with regret
Now you've learned to be strong
You'll never get back now what you lost
I know you wanted something real
something that's forever
so tell me how does it feel
that it's gone
you gave it all away you didn't even think about it
gave it all away for the moment
you didn't even think about it
Gave it all away for the moment
you gave it all away now there's nothing left to give
so give it back what you've taken from me
'cause I don't want to live with this insanity
You gave it all away you didn't even think about it
Gave it all away for the moment
You gave it all away now there's nothing left say about it
Gave it all away now there's nothing left to give.
