

# Big Tent Revival, Live For You

There is a joy you can't explain  
Where old things pass away  
And the new comes in  
I have that joy inside me now  
That turns your whole world inside out  
I've been saved, I've been saved

Chorus:

Every day You give to me  
I will live for You, for You  
Every day You give to me  
I will live for You

I've talked the talk, and played the game  
I've been to the ledge so many times  
I know the pigeons by name  
The seeds I've sown, they grew grapes of wrath  
But all those days are in the past  
I've been saved, I've been saved

Chorus

I believe Your words to me  
Seek the truth and be set free  
Every night I kneel and pray  
Give me one more day  
I've been saved, I've been saved

Chorus

There is a joy you can't explain
