

Big Tent Revival, Now Is The Right Time

Little child, won't you come on down and talk awhile with me
'Cause it's time to tell you now what you need to be free
I can see you workin', tryin' to behave
What you need is Jesus if you want to be saved

Chorus

Now is the right time, to listen to me
Man loves the nighttime, but God loves the mankind
Anyway

Little child, won't you hear me out, and look me in the eye
'Cause there's no room for doubt, and let me tell you why
'Cause all the world is workin', tryin' to behave
What they need is Jesus, 'cause He's the only way

Chorus

Now is the right time, to listen to me
Man loves the nighttime, but God loves the mankind
Anyway

Well I'm not your judge or jury
I'm just a jester in the court of grace
But I love you with the fury
And that's why I called you here, to tell it to your face

Chorus

Now is the right time, to listen to me
Man loves the nighttime, but God loves the mankind
Anyway
