

# Big Time Rush, Halfway there

(Kendall)

When the chips are down  
Back against the wall  
Got no more to give  
Cause we gave it all  
Seems like going the distance is unrealistic  
But we're too far from the star

(Carlos)

So we take what comes and we keep on going',  
Leaning on each others shoulders  
Then we turn around and see we've come so far somehow

(BTR):

Were halfway there, were looking good now  
Nothing's gonna get in the way  
Were halfway there, and looking back now  
I'd never thought that I'd ever say  
Were halfway there  
Were halfway there

(James)

If we never flew , we would never fall  
If the would was ours , we would have it all  
But the life we live isn't so simplistic, you just don't get what you want

(Logan)

So we take what comes and we keep on going',  
Leaning on each others shoulders  
Then we turn around and see we've come so far somehow

(BTR):

Were halfway there, were looking good now  
Nothing's gonna get in the way  
Were halfway there and looking back now  
I'd never thought that I'd ever say  
Were halfway there  
Were halfway there

Logan:

How you ever gonna reach the stars  
If you never get off the ground  
And your always here were you are,  
If you let life knock you down

(BTR):

Were halfway there, were looking good now  
Nothing's gonna get in the way  
Were halfway there, and looking back now  
I'd never thought that I'd ever say  
Were halfway there  
Were halfway there  
Were halfway there  
Were halfway there  
Were halfway there

Oh, Were halfway there
