

# Billie Piper, Saying Im Sorry Now

(This is B y'know  
First class y'know  
this is B here  
uh uh uh yeh)

Nobody knows this but me  
All i could see was someone  
Who didnt love me for me  
How could i have been so dumb?  
I tried to act like i knew  
You never cared from the start  
I gave you problems cos I  
Knew that you gave me your heart

My baby my my baby  
I wanna come back home  
My baby my my baby back to those open arms  
I'm everything you want  
Lord knows i'm everything you need  
I'll be those promises that you always said to me

If i never told you i need you  
I'm saying that i need you now  
If i never told you im sorry  
I'm saying that im sorry now (saying im sorry now)

And now im all alone  
My friends dont understand  
Said you cant have a good life if you cant keep a good man  
I was a fool back then  
I tried to be Miss Strong  
I let you go when you  
Didnt do a damn thing wrong

My baby my my baby  
I wanna come back home  
My baby my my baby back to those open arms  
I'm everything you want  
Lord knows i'm everything you need  
I'll be those promises that you always said to me

If i never told you i need you  
I'm saying that i need you now  
If i never told you im sorry  
I'm saying that im sorry now (saying im sorry now)

(why) deep down (why) you know you know im sorry  
(why did i let you go?) deep down you know you know im sorry  
(why why) deep down (why why) you know you know im sorry  
(why did i let you go) deep down you know you know im sorry

My baby my my baby  
I wanna come back home  
My baby my my baby back to those open arms  
I'm everything you want  
Lord knows i'm everything you need  
I'll be those promises that you always said to me

If i never told you i need you  
I'm saying that i need you now  
If i never told you im sorry  
I'm saying that im sorry now (saying im sorry now)

Repeat to fade
