

# Billy Currington, That Changes Everything

I said, &quot;I know a shrimp boat captain out of Galveston&quot;  
I've been thinkin' I'd go down and work for a spell  
Oh, you never can tell it just might suit me fine  
Spend some time out on the bay  
But then there's always cowboy work in Colorado  
And I was thinkin' that that just might be the thing  
Make a little pocket change I figure what the heck  
Ain't nothin' standin' in my way  
But then she smiled at me  
Looked a while at me

[Chorus]  
And that changes everything  
That's a whole 'nother deal  
That puts a brand new spin  
On this ole rollin' wheel  
That's some powerful stuff  
That's a girl in love  
And that's one thing  
That changes everything

Well, I suppose on second thought this ole town ain't so bad  
Wouldn't hurt me to unload this load of mine  
And there's a for sale sign on a little house  
I saw just about a mile or so from here  
But I've always been the kind for pullin' up the stakes  
It's ain't never been like me to put down roots  
But now I'm thinkin', &quot;Who am I kiddin'?&quot;  
I ain't goin' nowhere  
When she smiles at me  
Looks a while at me

[Chorus]  
And that changes everything  
That's a whole 'nother deal  
That puts a brand new spin  
On this ole rollin' wheel  
That's some powerful stuff  
That's a girl in love  
And that's one thing that changes everything

That's a whole 'nother deal  
That puts a brand new spin  
On this ole rollin' wheel  
That changes everything  
Ah, yeah  
That changes everything
