

# Billy Idol, John Wayne

You know you make me crazy  
And my mind is racing  
You're wastin' all my time  
Someone come and save me  
Oh, yeah

'Cause when I need you  
I can see through  
And I feel you  
Right now  
On my highway  
Doin' my way  
And I want you to feel  
When I'm going down

'Cause I am not afraid  
And I won't go down in flames  
'Cause nothing's gonna be the same  
And everything you know  
You keep inside your soul  
'Cause tonight I'm gonna be John Wayne  
Oh, yeah

Our golden days are chasin'  
And you're not gonna face it  
The reason's in the rhyme  
You walked on what was sacred  
Oh, yeah

And when I need you  
I can reach through  
And I feel you  
Right now  
It's a new day  
But your skies are grey  
And I want you to feel  
When I'm going down

'Cause I am not afraid  
And I won't go down in flames  
'Cause nothing's gonna be the same  
And everything you know  
You keep inside your soul  
'Cause tonight I'm gonna be John Wayne

Everything you know  
You keep inside your soul  
'Cause tonight I'm gonna be John Wayne

I am not afraid  
And I won't go down in flames  
'Cause nothing's gonna be the same  
And everything you know  
You keep inside your soul  
'Cause tonight I'm gonna be John Wayne  
I am not afraid  
And I won't go down in flames  
'Cause nothing's gonna be the same  
And everything you know  
You keep inside your soul  
'Cause tonight I'm gonna be John Wayne
