

Billy Morrison, Crack Cocaine - feat. Ozzy Osbou

Crack Cocaine"
(feat. Steve Stevens)

I guess the way that your love makes me feel
Must mean I'm really addicted
Sometimes I wonder, is your love really real?
Or am I simply afflicted

I can't stop thinking of you
You just control me
I wanna have you all to myself
And give you love unrestricted

Loving you is driving me insane
I put you down and pick you up again
Like crack cocaine

Your love is like a drug that I can't control
I can't live with or without you
You keep me coming back again and again
You're even good in a bad dream

Loving you is driving me insane
I put you down and pick you up again
Like crack cocaine

I never thought I'd have you back again
Crack cocaine
And now I'm running out of cash again
Crack cocaine
And all you ever do is bring me pain

Loving you is driving me insane
I put you down and pick you up again
Loving you is driving me insane
Like crack cocaine
