

Billy Ray Cyrus, One Last Thrill

(Dave Loggins/Reed Nielsen)

So I'll be leavin' this house without you
That's the last thing I thought I'd ever do
How could we come so far and be so close
And have such a distant point of view
I won't stand here and cry over differences
I won't say things I'll regret
I'll be on my way with this broken heart
But the memories I'll caress
Darlin', would you honor this last request
Let's take one last drive just one last time
And go up on ol' lovers hill
Let's take one last look at those city lights
Like the first time we came up here and learned how to feel
Let's take one last look at those stars that shine
I remember how it was still
Then let me take one long lasting look at your face
Give me one last kiss, one last thrill
Then I'd be happy and I'd take you home
You wouldn't even have to ask me in
By then I'll be like a stranger baby
But I'll walk you to the door like a gentleman
And I'd drive away and I won't be back
It doesn't matter which way I go
I'll always be on a one-way street
Always down a dead-end road
I will always love you and that's all I know
So ...
Let's take one last drive just one last time
And go up on ol' lovers hill
Let's take one last look at those city lights
Like the first time we came up here and learned how to feel
Let's take one last look at those stars that shine
I remember how it was still
Then let me take one long lasting look at your face
Give me one last kiss, one last thrill
Just let me take one long lasting look at your face
Give me one last kiss, one last thrill
